

# Pointy from Google Sign Up Guide

**A Simple Guide on How to Setup and  
Use Pointy with Quantic POS**

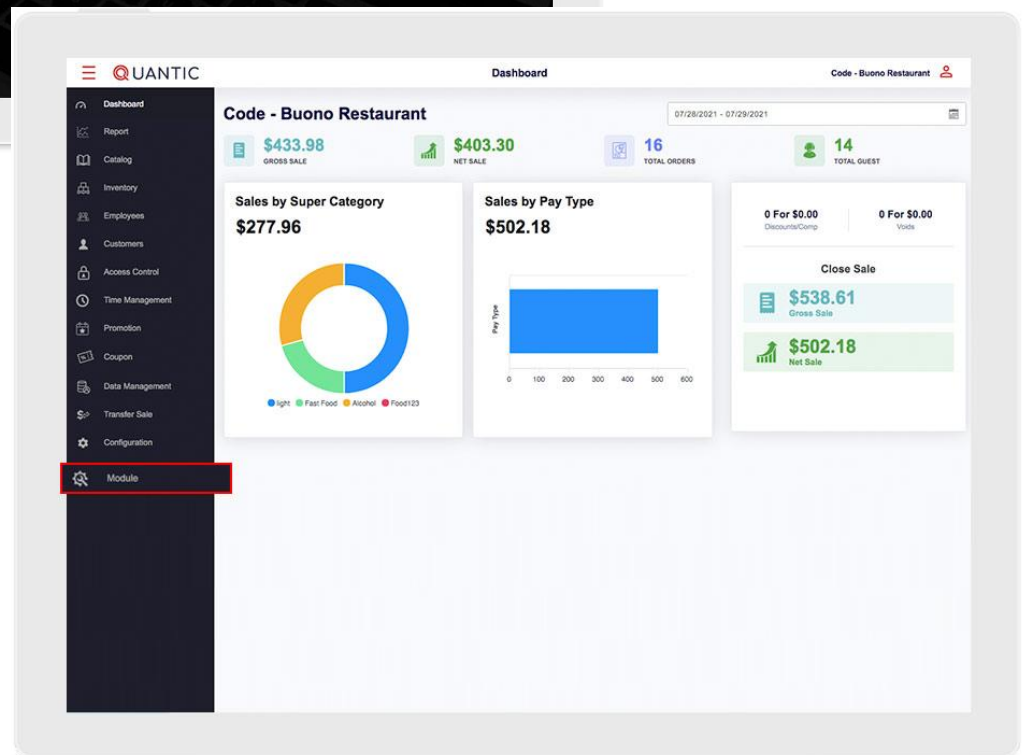

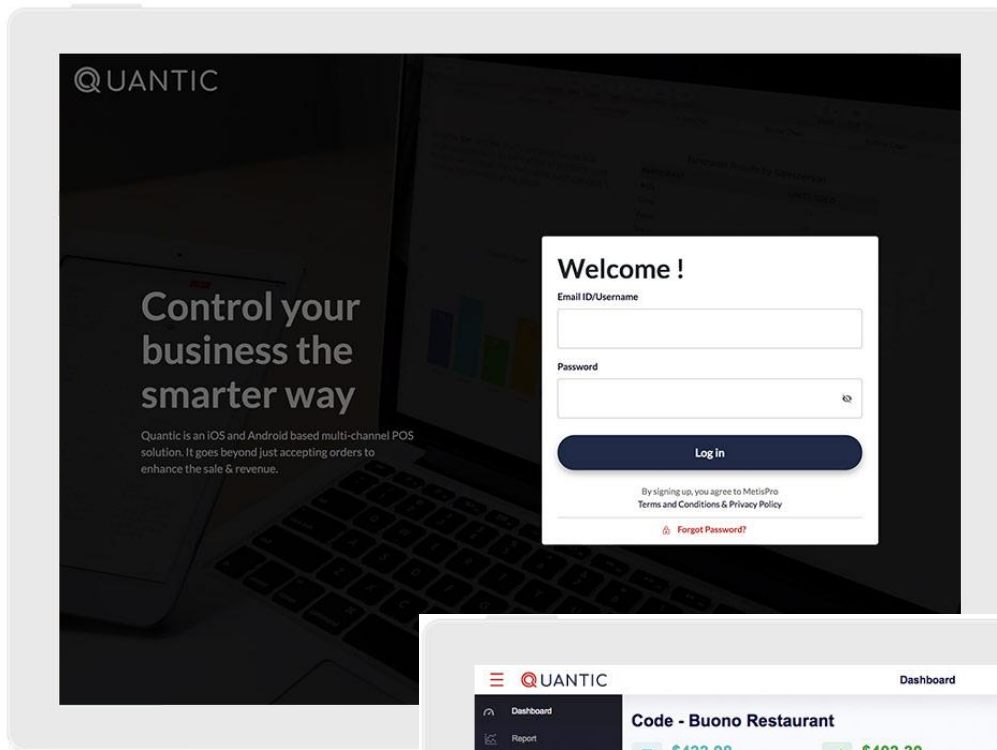

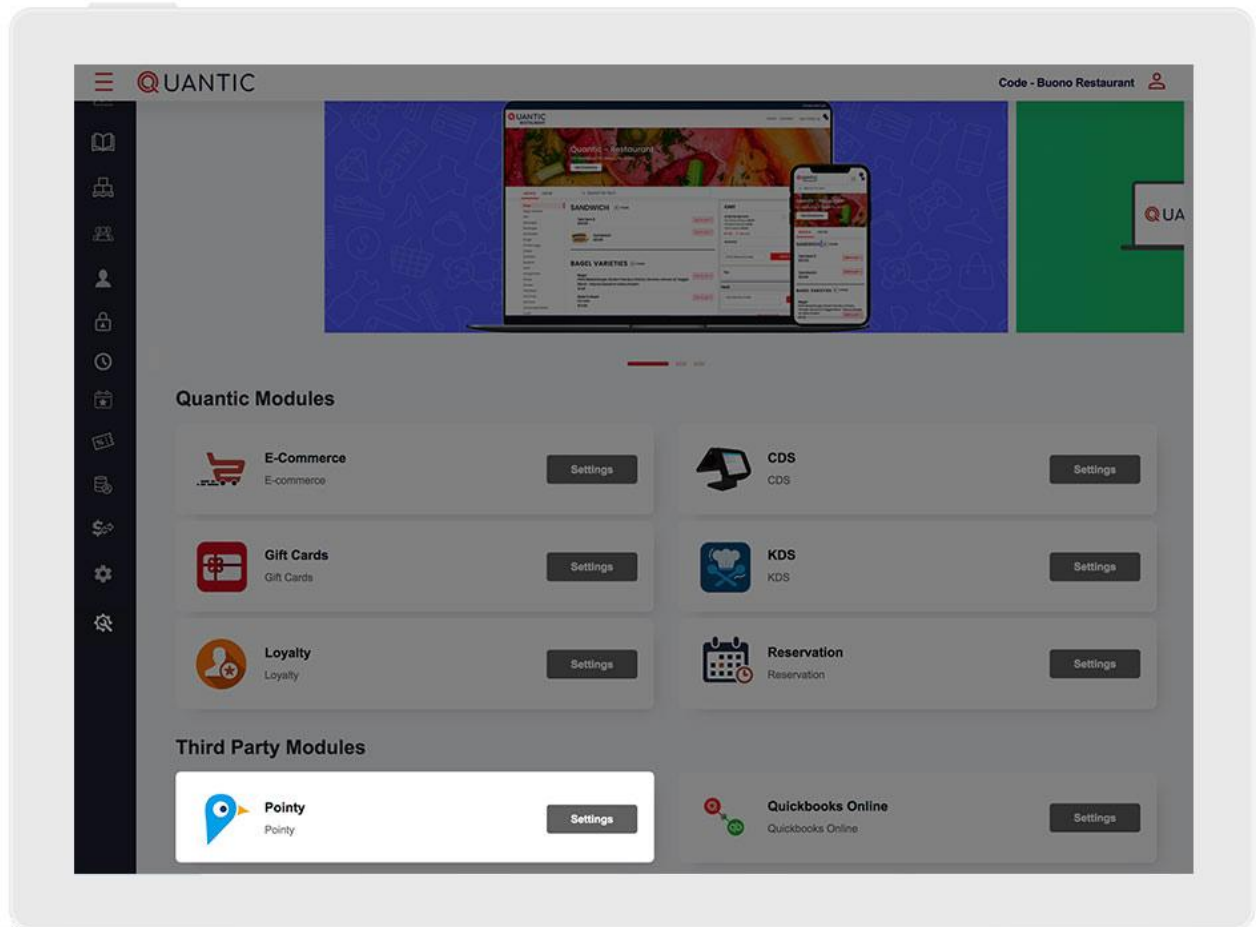

## STEP 1:

# Sign up from your Quantico Backend Portal

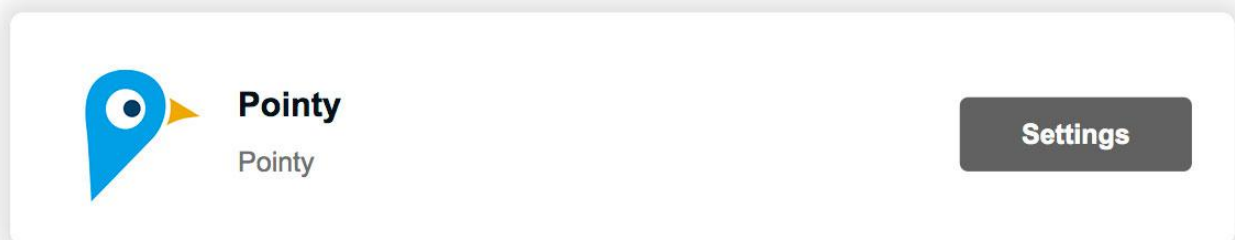

- A. Go to the Quantico POS backend portal ([myquantic.com](https://myquantic.com)) to log in using the username and password from your Quantico POS Welcome Letter. Once you log in, you'll be brought to your Sales Dashboard.

B. From here, select the **Module** button from the left menu. The modules section allows you to add free and premium features to your Quantic POS, making it the most efficient software for your business.

C. Scroll down in the module section until you reach the Third Party Modules section. You should see a section for Pointy - click **Settings** to begin the setup.

D. Your business information will autofill, but you can make any changes needed. The store information is what customers will see when they view your Pointy page on Google, so double check to make sure all information is accurate.

- E. Also make sure to check the Owner Information tab - this info is used internally by the Quantic and Pointy teams to verify your email address, schedule onboarding calls and contact you if there is a problem with your account.

The screenshot shows a web interface for the Quantic Pointy Module. At the top, there is a navigation bar with a back arrow, the Quantic logo, the word "Module", and the text "Code - Buono Restaurant" with a user icon. Below this, the main heading is "Pointy Module". Underneath, there are two tabs: "SETUP STORE" and "OWNER INFORMATION", with the latter being selected and underlined. The form is titled "Enter Owner Information" and contains four input fields: "Owner Name\*", "Owner Email\*", "Owner Phone Number", and another "Owner Phone Number" field. At the bottom of the form, there is a "Previous" button with a left arrow and a red "Submit" button.

## STEP 2:

# Verify your email and finish setting up your Pointy store

A. Once the store is set up, you'll receive an email verification from Pointy.

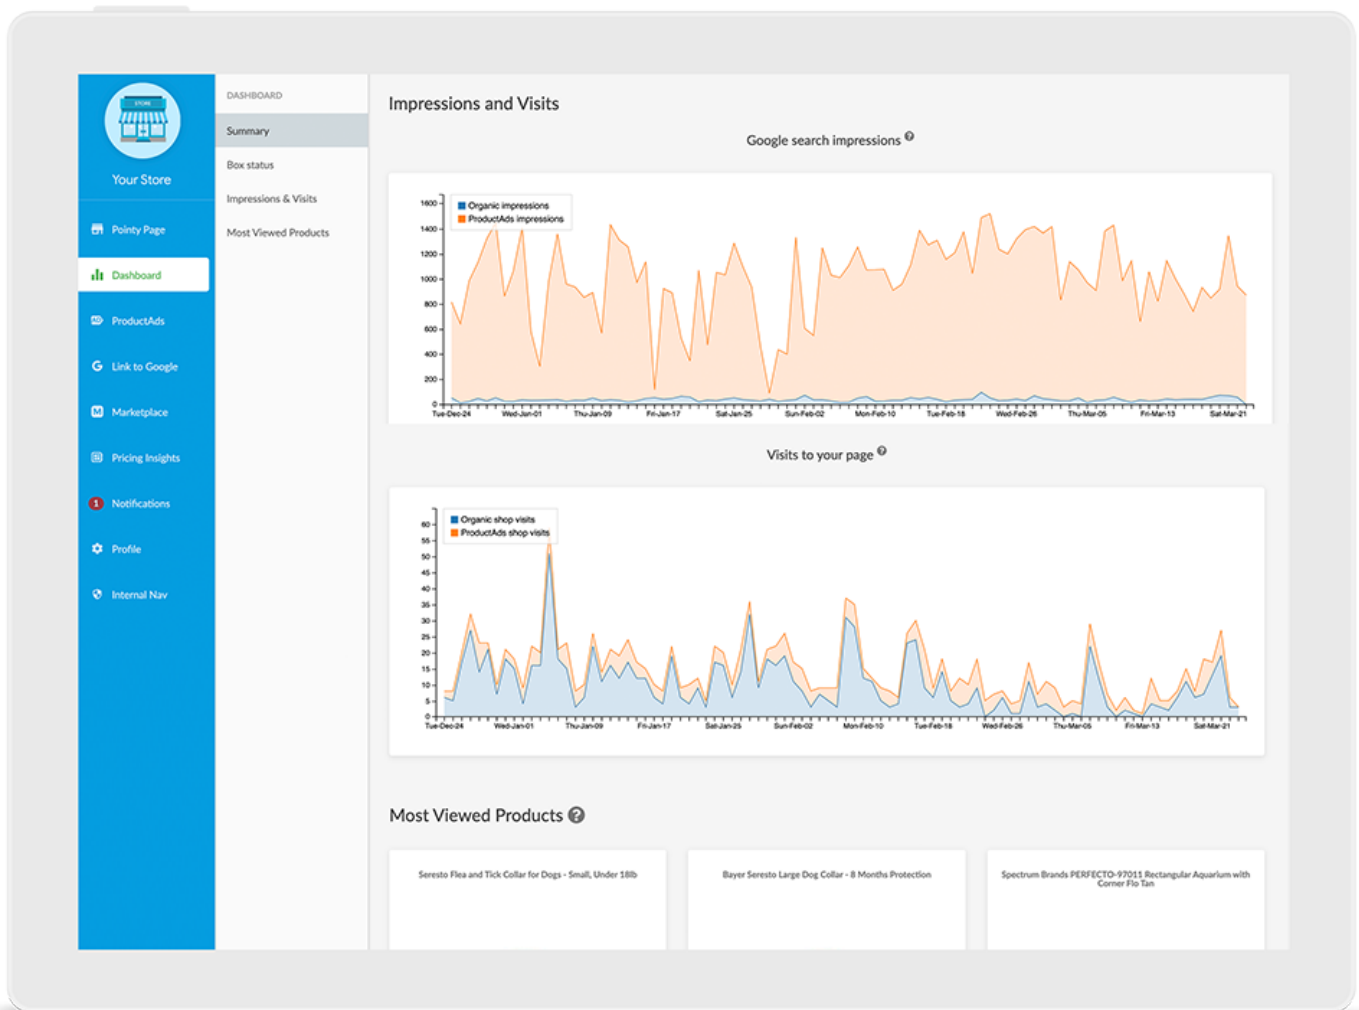

B. Click the **Verify Email** link to create your password. Once complete you'll be able to login and see your Pointy backend.

## STEP 3:

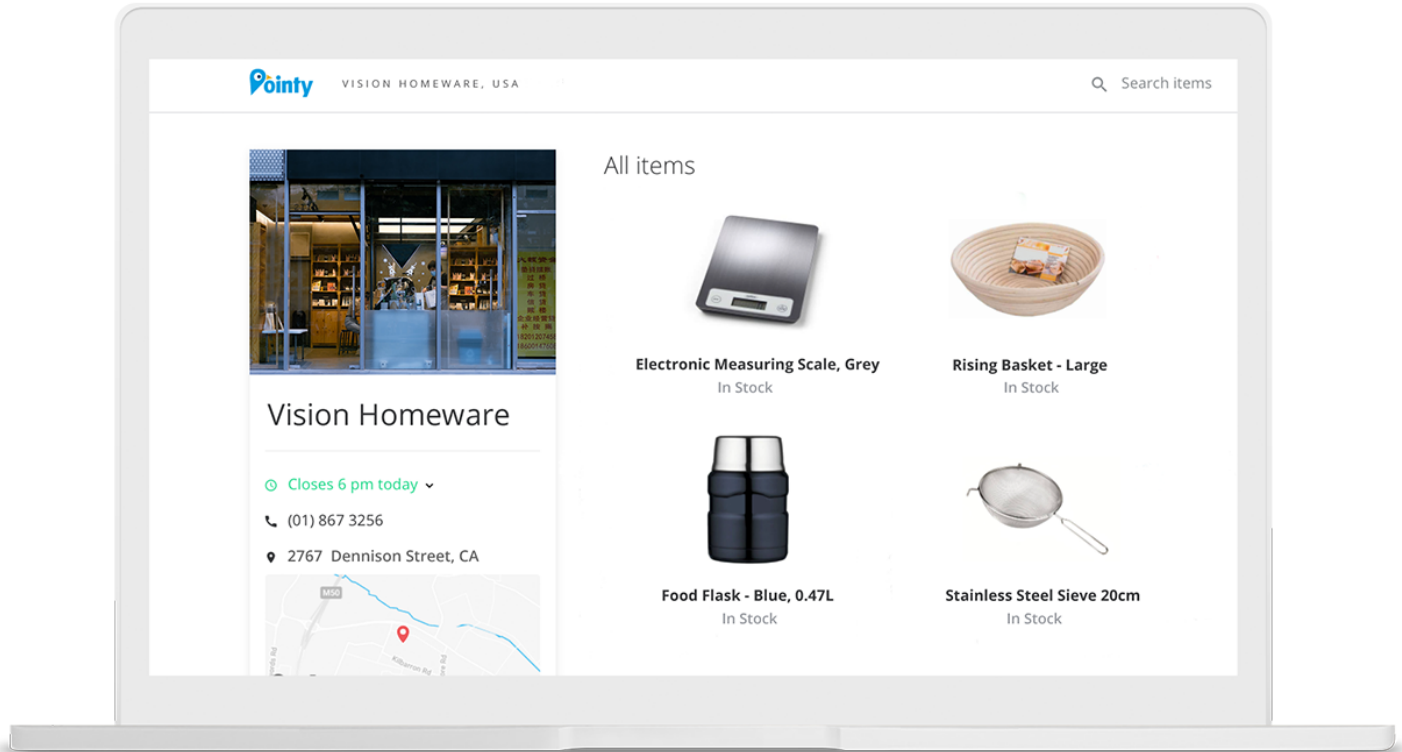

# Confirm your store information on the Pointy backend store

- A. This Pointy backend store will allow customers to see your products and on hand inventory. The Quantic POS system pushes data frequently to make sure your customers are seeing the most up to date information.

B. Customers can now see what products you have in store and learn more about your basic business information right from their Google search! Here's an example of how your Pointy store could look:

## If you already use Pointy, please follow the steps below to link it with your Quantic POS system:

1. Reach out to Pointy support at [support@pointy.com](mailto:support@pointy.com) and include the following information:
  - a. Store Name
  - b. Store Address
  - c. Brief Explanation of your Request (ex: I would like to connect my current Pointy account to the Quantic Point of Sale)
2. The Pointy agent will associate your current Pointy page to the correct integration and will provide you with a **retailer key**
3. Email our Quantic POS Support Team at [support@metispro.com](mailto:support@metispro.com) with your Pointy **retailer key** and we'll finalize the setup.

## You're all set!

Thank you for choosing Quantic POS and Pointy from Google. If you have any questions about the set up process or Pointy in general, please don't hesitate to contact us at [sales@metispro.com](mailto:sales@metispro.com)
